PROFESSIONAL SUMMARY

Full-Stack Developer with 4+ years of experience building responsive, SEO-optimized web applications. Proficient in HTML5, CSS3, JavaScript ES6+, jQuery, TypeScript, React, Next.js, NestJs, Vue, and Bootstrap for frontend development, with strong backend expertise in Node.js, Express.js, PHP, MySQL, and MongoDB. Experienced in translating Figma and PSD designs into pixel-perfect, cross-browser compatible interfaces using media queries and responsive design principles. Skilled in WordPress theme and plugin development, with hands-on experience on Shopify, BigCommerce, and Magento platforms. Proficient with Git/SVN version control, Chrome DevTools debugging, and AI-assisted development tools including GitHub Copilot and Cursor. Adept at managing multiple projects under tight deadlines with strong attention to detail and clear communication.

-

PROJECTS

Frontend Developer (Freelance) — 13/3/2022–Present

- **Personal Portfolio Website** [Github](#) | [Live Link](#)

A fully responsive portfolio highlighting my personal projects and SEO-friendly structure for improved visibility.

Tech stack: Html, Css, JavaScript.

- **Nexus** [Github Link](#) | [Live Link](#)

A modern, powerful business intelligence dashboard built with React, Tailwind CSS, and Recharts. Nexus provides comprehensive business analytics, customer management, inventory tracking, and reporting tools in a beautiful, responsive interface.

Tech stack: React, Tailwind Css.

- **ZORIEJËUN** [Github Link](#) | [Live Link](#)

A fully responsive front-end website built with HTML, CSS, and JavaScript to showcase traditional Nigerian food delivery service. The site features a visually engaging menu, brand storytelling, and a newsletter sign-up form with client-side validation, demonstrating form handling and user input validation. Designed with a mobile-first approach, it delivers a seamless browsing experience across all devices while maintaining clean UI, intuitive navigation, and optimized performance.

Tech stack: Html, Css, JavaScript

- **SmartLiving** [GitHub Link](#) | [Live Link](#)

SmartLiving is a premium, high-tech platform designed to bridge the gap between real estate and the Internet of Things (IoT). It's built with a sleek, futuristic interface and it provides users with a central ecosystem to discover, manage, and automate smart properties.

Tech stack: React, Tailwind CSS.

EDUCATION

BACHELOR OF SCIENCE: Computer Science, 2025

BINGHAM UNIVERSITY: Nasarawa State.

KEY ACHIEVEMENTS

- Collaborated with designers to translate 33+ Figma mockups into pixel-perfect web layouts, achieving 100% design accuracy.
- Implemented technical SEO strategies (meta tags, schema markup, and structured URLs) to improve search engine rankings.
- Deployed and managed 40+ projects on GitHub Pages and Vercel, enabling real-time previews and faster feedback cycles.

ADDITIONAL QUALIFICATIONS

- Strong understanding of on-page SEO and performance metrics.
- Familiar with deploying static sites using Vercel & Netlify.
- Enthusiastic about learning new frontend technologies and frameworks.

- Attention to detail with a focus on accessibility and responsive design.
